DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
 - a) **In Regarding to Claims 8-10 and 14-19:** The prior arts of record fail to teach a method for transmitting useful data from a first mobile station to a second mobile station, the method comprising a combination of steps of:

the useful data encoded in first and second steps are transmitted in the form of a first bit stream to an intermediary station via a transmission channel of a first telecommunication network;

the useful data are channel encoded by the intermediary station and the useful data thus channel encoded are transmitted to the second mobile station via a transmission channel of a second telecommunication network; and

signalization data are transmitted from the intermediary station to the second mobile station, wherein the signalization data containing information regarding the type of encoding of the useful data in the first step, the useful data channel encoded in the intermediary station are channel decoded by the second mobile station, and then the useful data channel decoded by the second mobile station are source decoded by the second mobile station, according to the signalization data received by the second mobile station.

- b) **In Regarding to Claims 11-13, 14-16 and 20-22:** The prior arts of record fail to teach a method for transmitting useful data from a first mobile station to a second mobile station, the method comprising a combination of steps of:

the useful data encoded in first and second steps are transmitted in the form of a first bit stream to an intermediary station via a transmission channel of a first telecommunication network;

the useful data are channel encoded by the intermediary station and then are transmitted to the second mobile station via a transmission channel of a second telecommunication network; and

signalization data are transmitted from the intermediary station to the second mobile station, wherein the signalization data containing information regarding the type of encoding of the useful data in the first step, the useful data encoded in the intermediary station are decoded by the second mobile station, and then the useful data decoded by the second mobile station are decoded by the second mobile station, according to the signalization data received by the second mobile station.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
